JC50130 – Low energy high performance surface module
3 x 54W T5 / White

JC50130HF3M – Low energy high performance surface module 3hr integral emergency
3 x 54W T5 / White

JC50131 – Low energy high performance surface module
4 x 54W T5 / White

JC50131HF3M – Low energy high performance surface module 3hr integral emergency
4 x 54W T5 / White

JC50132 – Low energy high performance surface module
3 x 80W T5 / White

JC50132HF3M – Low energy high performance surface module 3hr integral emergency
3 x 80W T5 / White

JC50133 – Low energy high performance surface module
4 x 80W T5 / White

JC50133HF3M – Low energy high performance surface module 3hr integral emergency
4 x 80W T5 / White

JC50134 – Low energy high performance surface module
4 x 55W TC-L / White

JC50134HF3M – Low energy high performance surface module 3hr integral emergency
4 x 55W TC-L / White

JC50135 – Low energy high performance surface module
6 x 55W TC-L / White

JC50135HF3M – Low energy high performance surface module 3hr integral emergency
6 x 55W TC-L / White

JC50136 – 2 or 4 lamp 1200mm wire guard

JC50137 – 3 or 6 lamp 1200mm wire guard

JC50138 – 2 or 4 lamp 1500mm wire guard

JC50139 – 3 or 6 lamp 1200mm wire guard

JC50140 – 2 or 4 lamp 1200mm polycarbonate diffuser

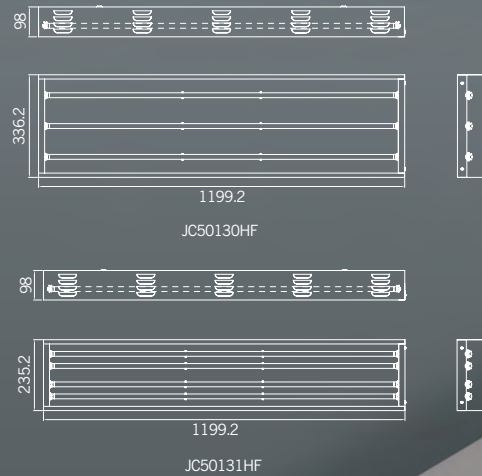

JC50141 – 3 or 6 lamp 1200mm polycarbonate diffuser

JC50142 – 2 or 4 lamp 1500mm polycarbonate diffuser

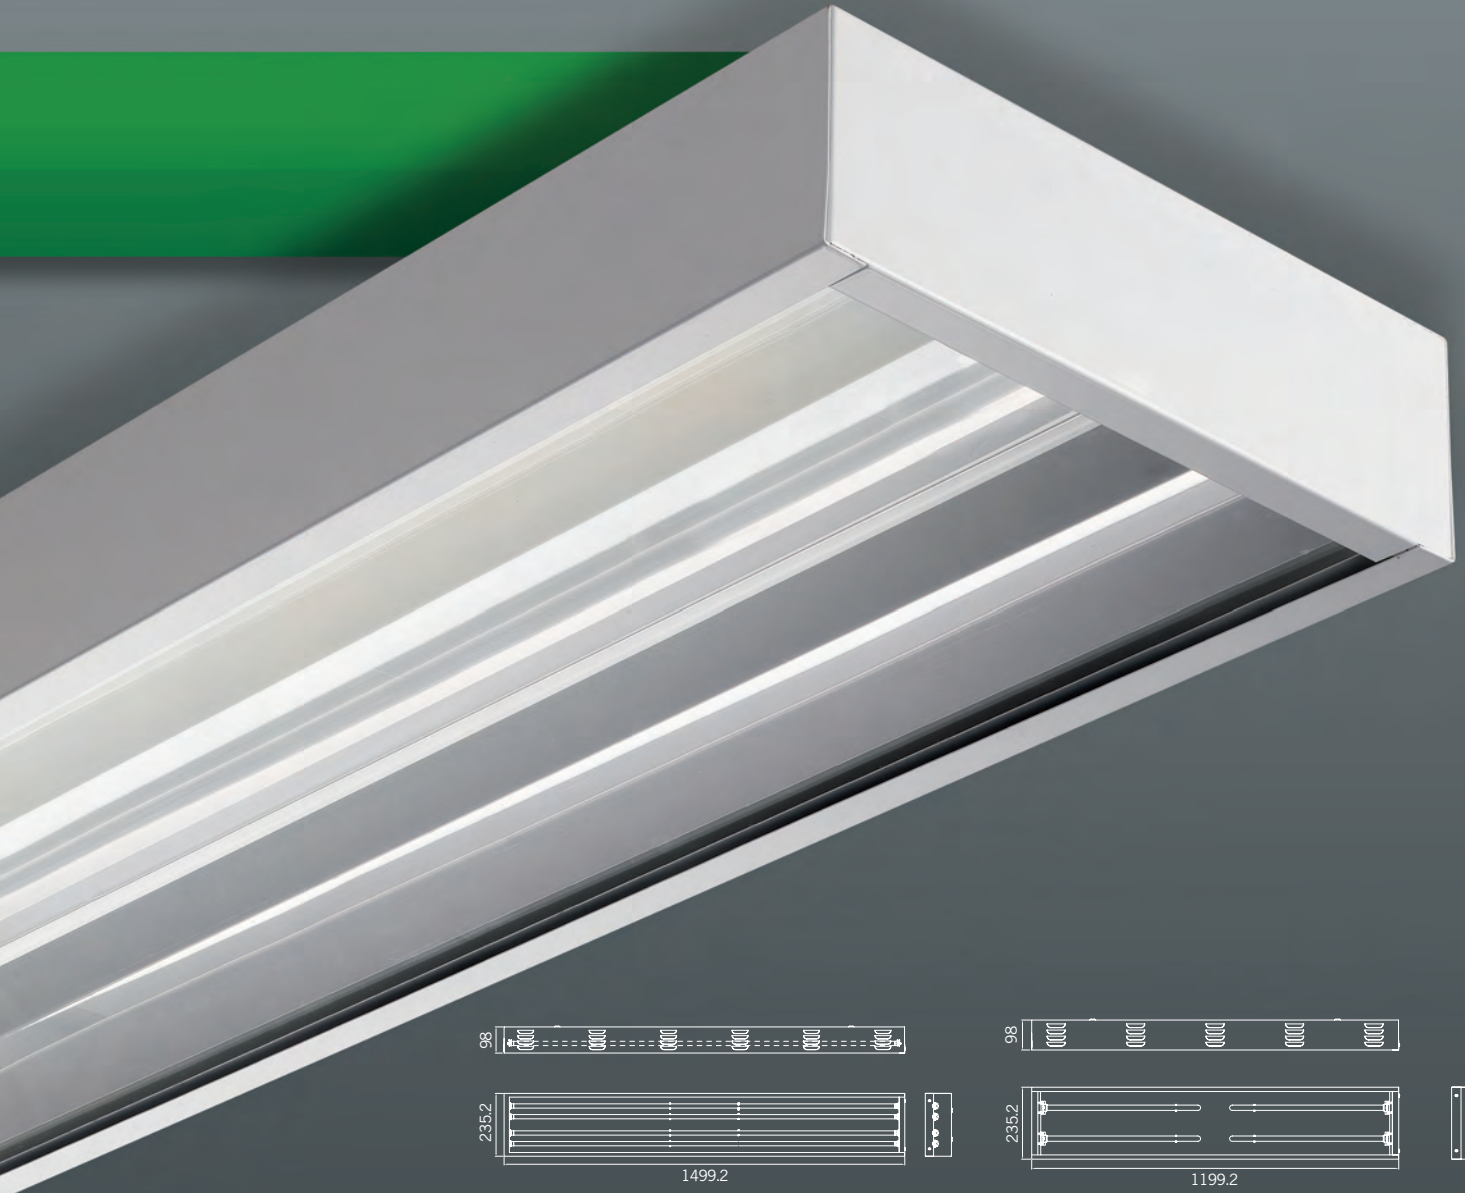

JC50143 – 3 or 6 lamp 1500mm polycarbonate diffuser

- High performance linear surface mounted luminaire
- Optional wire guard and/or polycarbonate visor available for extra protection
- High frequency control gear
- T5 or TCL lamp technology
- Ideal for sports halls and industrial or warehouse applications
